EDUCATION

VIT University , Chennai	2023 – 2027
B.Tech in Computer Science (AIML) • CGPA: 8.55	
P Obul Reddy Public School , Hyderabad	2021 – 2023
Class 12th • CBSE • 91.8%	
Bharatiya Vidya Bhavan's Atmakuri Rama Rao School , Hyderabad	2008 – 2021
Class 10th • CBSE • 94.6%	

TECHNICAL SKILLS

Languages: C, C++, Java, Python, SQL
Frontend Development: React, HTML, CSS, JavaScript
Backend, APIs & Databases: Django, Django REST Framework, REST APIs, PostgreSQL, SQLite
Generative AI & LangChain: LangChain, LLMs, Prompt Engineering, Agents, Microsoft AI Foundry
AI/ML Libraries: NumPy, Pandas, scikit-learn, PyTorch, Matplotlib
Tools & Frameworks: VS Code, Git, GitHub
Relevant Coursework: Operating Systems, Computer Networks, OOPS, DBMS

PROFESSIONAL EXPERIENCE

TechProfuse , Hyderabad — <i>AI Intern</i>	May 2025 – Jul 2025
• Worked as an AI Intern focusing on intelligent automation and language model integrations • Utilized LangChain, OpenAI APIs to build AI-driven support and automation tools • Contributed to the development of smart query processing and document understanding systems	

PROJECTS

IT Ticketing Chatbot	<i>Streamlit — LangChain — OpenAI — FAISS — Pandas</i>	Jul 2025
• Built an AI-powered chatbot for IT support using LangChain and OpenAI. • Implemented semantic search with FAISS embeddings for ticket retrieval. • Processed Excel ticket data using Pandas and generated automated resolution suggestions.		
	Code — No live website	
Ocean Plastic Risk Intelligence System	<i>Python — Pandas — Scikit-learn — Matplotlib</i>	Ongoing
• Developed an ML pipeline to predict ocean plastic accumulation. • Integrated environmental, demographic, and climate datasets with feature engineering. • Trained regression models to estimate pollution risk and environmental impact.		
	Code — No live website	
Eco-Footprint Tracker	<i>React — Django — SQLite — Chart.js</i>	2025
• Developed a web application for tracking and visualizing environmental impact. • Built a responsive React interface with interactive dashboards using Chart.js. • Integrated a Django backend for data management and user activity tracking.		
	Code — No live website	

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (Exam AI-901)	Jun 2026
Microsoft Validated knowledge of Azure AI Services, Microsoft AI Foundry, Generative AI, Prompt Engineering, NLP, Computer Vision, Speech AI and Responsible AI. Credential Verification
